HEALTH CARE DELIVERY SYSTEM

H. Geographical Area Served.

Note: The applicant is required to demonstrate that, throughout the geographic regions designated as the plan's Service Area, a comprehensive range of primary, specialty, institutional and ancillary services are readily available at reasonable times to all enrollees and, to the extent feasible, that all services are readily accessible to all enrollees.

For the purpose of evaluating the geographic aspects of availability and accessibility, consideration will be given to the actual and projected enrollment of the plan based on the residence and place of work of enrollees within and, if applicable, outside the service area, including the individual and group enrollment projections furnished in Items CC, DD and EE of this application.

An applicant for plan license must demonstrate compliance with the accessibility requirement in each of the areas specified in paragraphs (i) through (iv) below, either by demonstrating compliance with the guideline specified in such paragraphs or, in the alternative, by presenting other information demonstrating compliance with reasonable accessibility. These guidelines apply only with respect to initial license applications and provide presumptively reasonable standards in the absence of actual operating experience. Such guidelines are not intended to express minimum standards of accessibility either for applicants or for licensees nor to create any inference that a plan which does not meet these guidelines does not meet the requirement of reasonable accessibility.

(i) Primary Care Providers. All enrollees have a residence or workplace within 30 minutes or 15 miles of a contracting or plan-operated primary care provider in such numbers and distribution as to accord to all enrollees a ratio of at least one primary care provider (on a full-time equivalent basis) to each 2,000 enrollees.

(ii) Hospitals. In the case of a full-service plan, all enrollees have a residence or workplace within 30 minutes or 15 miles of a contracting or plan-operated hospital which has a capacity to serve the entire dependent enrollee population based on normal utilization, and, if separate from such hospital, a contracting or plan-operated provider of all emergency health care services.

(iii) Hospital Staff Privileges. In the case of a full-service plan, there is a complete network of contracting or plan-employed primary care physicians and specialists each of whom has admitting staff privileges with at least one contracting or plan-operated hospital equipped to provide the range of basic health care services the plan has contracted to provide.

(iv) Ancillary Services. Ancillary laboratory, pharmacy and similar services and goods dispensed by order or prescription on the primary care provider are available from contracting or plan-operated providers at locations (where enrollees are personally served) within a reasonable distance from the primary care provider.

1. Description of Service Area. As Exhibit H-1, attach a narrative description of the applicant's service area and the geographic area in which its enrollees (actual and/or projected) live and work and list all U.S. Postal ZIP Code numbers included in the service areas. If the applicant has more than one service area, each service area should be

separately described. To the extent possible, service areas should be delineated by political or natural boundaries. (If applicant uses sub-service areas or regions within its service areas for the purpose of allocating the provision of health care services by providers to enrollees, include that information in the description of the considerations which underlie the geographic distribution of the applicant's contracting and plan-operated providers.)

2. Map of Service Area. As Exhibit H-2, attach a map or maps upon which the information specified below is indicated by the specified system of symbols. The map(s) employed should be of convenient size and of the largest scale sufficient to include the applicant's entire service area and the surrounding area in which the actual or projected enrollees live or work. The use of good-quality city street maps or the street and highway maps available for various metropolitan areas, and regions of the state, such as are commonly available from automobile associations or retail service stations is preferred. The map or maps should show the following information:

a. Such geographic detail, including highways and major streets, as is generally portrayed on the kinds of maps referred to above.

b. The boundaries of applicant's service area.

c. The location of any contracting or plan-operated hospital and, if separate, each contracting or plan operated emergency health care facility. Hospitals are to be designated by an "H" and emergency care facilities by an "E."

e. The location of all other contracting or plan-operated health care providers including the following: Dental, designated by a "D." Pharmacy, designated by an "Rx." Laboratory, designated by an "L." Eye Care, designated by an "O." Specialists and ancillary health care providers, designated by an "S."

f. The location of all subscriber groups which have submitted letters of intent or interest to join the applicant's plan designated by a "G." (See Item CC-3.)

3. Index to Map. As Exhibit H-3, attach an index to the map or maps furnished as Exhibit H-2, which shows, for each symbol placed on the map for a hospital, emergency care facility, primary care provider or ancillary provider, the following information:

a. For each hospital, its total beds and the number of beds available to enrollees of the plan.

b. For each symbol for primary care providers, the number of full-time equivalent primary care providers represented by that symbol.

c. For each interested subscriber group, the name of the group and the projected number of enrollees from that group.

I. Description of Health Care Arrangements.

Note: Providers of Health Care Services. The information in this item is for the purpose of assessing the adequacy of the applicant's health care provider arrangements.

If the service area of the plan and the distribution of its enrollees is so geographically limited that all plan health care providers are readily available and accessible to all enrollees, no geographic division of the provider information required in this part need be made.

However, if applicant's service area is divided into separate provider networks for regions within the service area, the information required in this Item-1 must be furnished separately for each such region and provider network.

4. Calculation of Provider-Enrollee Ratios. As Exhibit I-4, furnish a calculation of the adequacy of the applicant's provider arrangements for each region or provider network within applicant's service area. This should be based on the full range of the health care services covered by the applicant's full-service or specialized plan contracts, the extent to which contracting and planned-owned or employed providers are available to provide such services, the enrollee population served by such providers and the adequacy of the provider system in each category based on standard utilization data.
